-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4, 6, 9,11 and 35-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Hand.

See Figs. 5-8 where the spud is 213, flush valve is 216/220, ring is 254 and the engaging means is any structure that effectuates the flush. The claim 4 “limit means” is met by any structure that prevents the valve from escaping the spud during flush, even if this the lid of the tank. Claims 6 and 9 are met by the force of the water in the tank which will “load” the float. Claims 38 and 40 are met as claim 6 supra.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-3,5,10 and 38-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 2, “vertical travels and rotations”, should be –vertical and rotational movement-,in all claims the “means plus function” clauses should conform to proper format. Re: claim 10 , a means clause should not include a second “means”. In claim 38, what is “interactive actions” and where is this set forth in the disclosure?

Claims 2-3,5,10, 39 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the

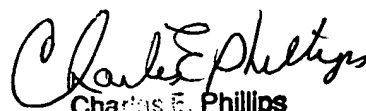

limitations of the base claim and any intervening claims with the 112 conditions supra cured.

Sprang shows another flush valve housed on a spud.

Applicant should perform a spell check on the entire specification. Terms such as "verdical" on page 34 should be corrected.
